

MenlaScanTM Functional and Fitness Body Scan Systems by Menlatech

Cutting-edge technology to empower health and fitness professionals

Kiosk and Portable Systems

Main Principles Of The MenlaScan® Systems

MenlaScan® Systems are functional wellness and fitness screening programs that include the **patented algorithm** for automatic cross-data analysis (program cross-analysis) that is recorded with the use of **4 scientific technologies**:

Multi-frequency body composition assessment

Galvanic skin response assessment

Rhythmogram (R – R intervals analysis) Heart Rate Variability

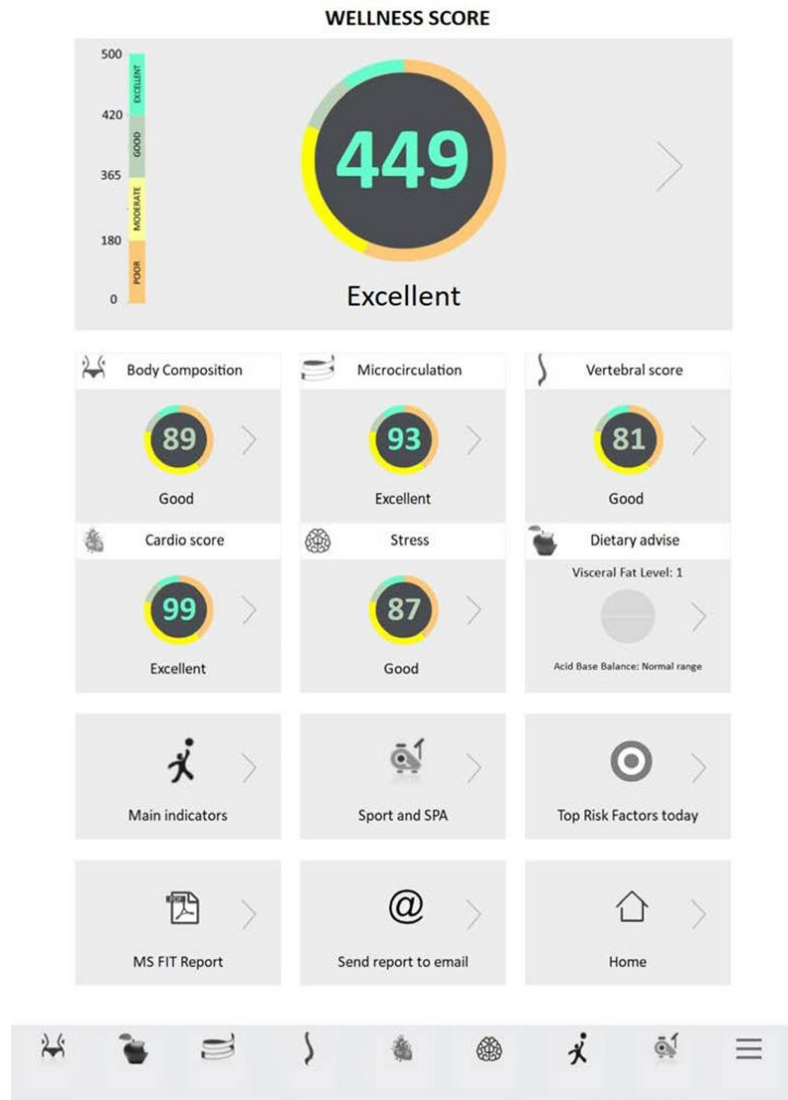

Digital pulse wave analysis

This combination allows this device to provide comprehensive wellness data for your clients and create an individual program based on the information received, considering your client's wishes and ultimate goals.

Features Detailed Body Assessments with Scores and Recommendations

Diet and micro nutrition advisor including visceral fat
3D modeling and acid base balance

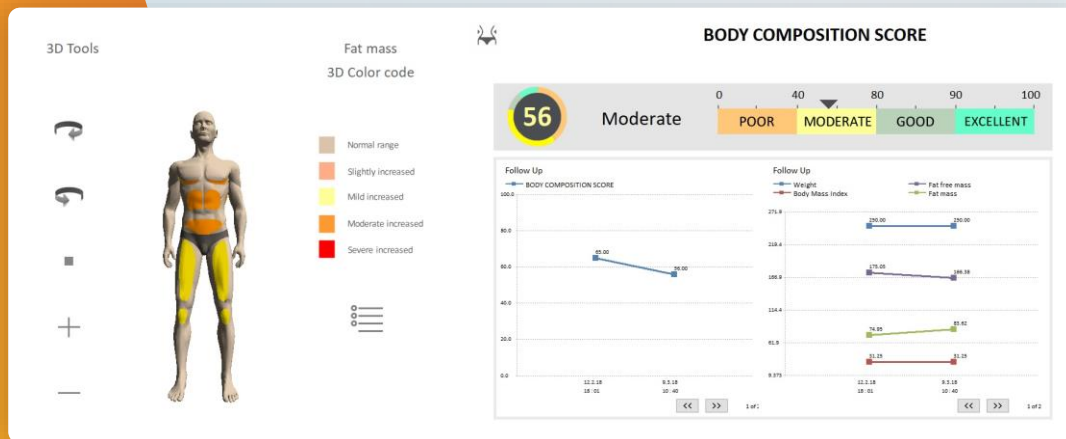

Wellness Score

After the very first test the clients have a clearer picture of their current wellness, know about possible reasons for certain health issues, and understand in which direction to go in order to achieve their goals.

Fat, Muscle mass, and Fluid Balance

Stress and Fatigue Scores

Efficiency and Recovery

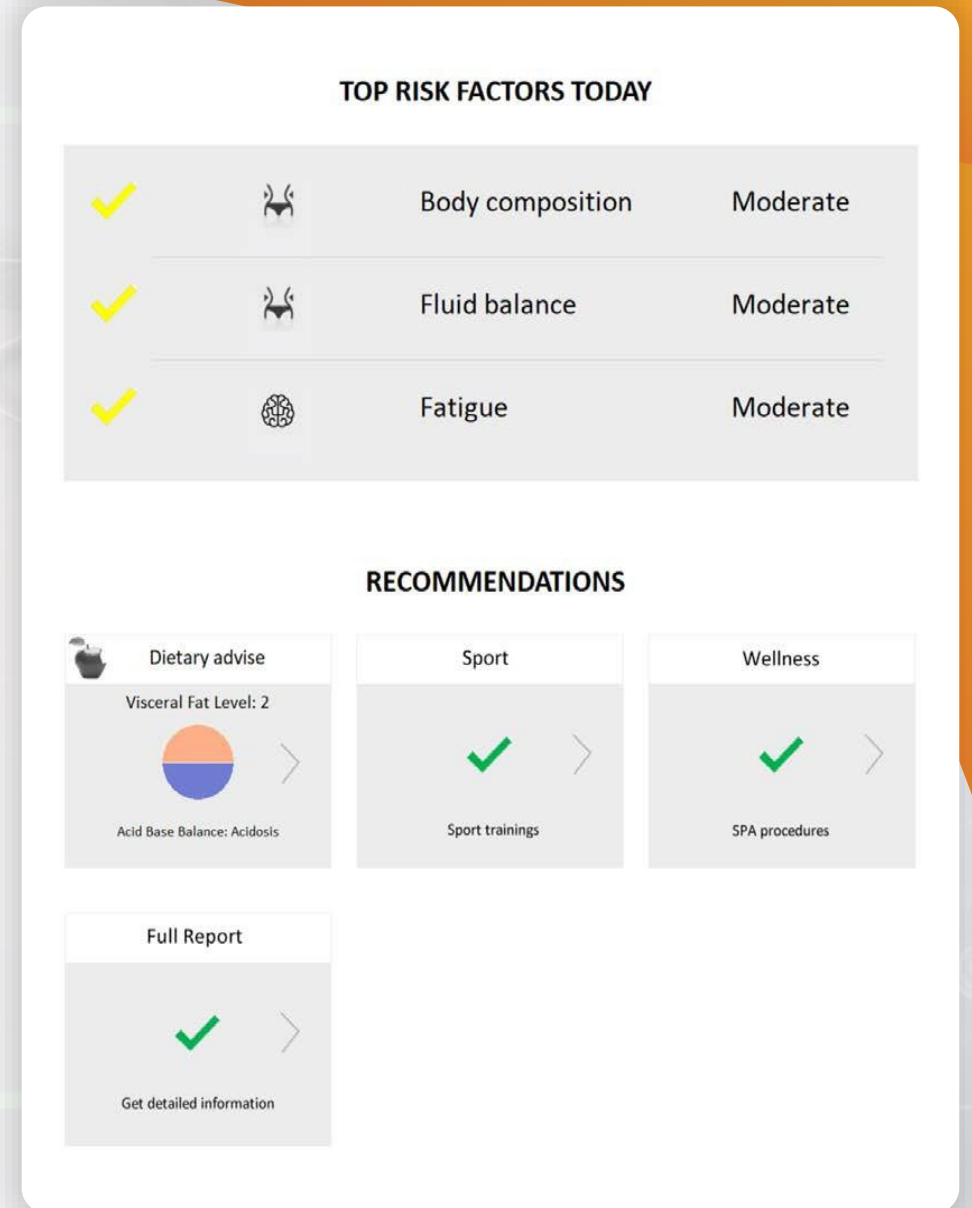

Physical Performance

Top Risk Factors & Recommendations

At the end of the test, the client can see the summary of the top risk factors based on his/her current state

A detailed report is automatically sent to the client's e-mail address

Summary of Features

A simple look at the two MenlaScan® assessment levels.

MenlaScan® PRO

Comprehensive wellness insight for practitioners

- 120-second assessment
- 128 physiological metrics
- Digital pulse wave analysis and hemodynamic indicators
- Screening Markers for leading lifestyle health issues

MenlaScan® FIT

Fast, actionable insight for fitness & wellness

- 60-second assessment
- Fitness, health and performance insights
- Supports workout and progress conversations
- Designed for fitness and wellness environments

What is MenlaScan® FIT?

MenlaScan® FIT is a non-invasive general wellness assessment designed for fitness, performance and wellness environments. In about 60 seconds, it provides easy-to-understand information that can support conversations around performance, workouts and progress.

60-SECOND ASSESSMENT

Fast visual wellness insight for fitness & performance settings

Designed to help:

- Increase engagement
- Optimize workouts
- Monitor progress
- Support awareness of overtraining

MenlaScan® FIT is a general wellness device and is not intended for diagnostic use.

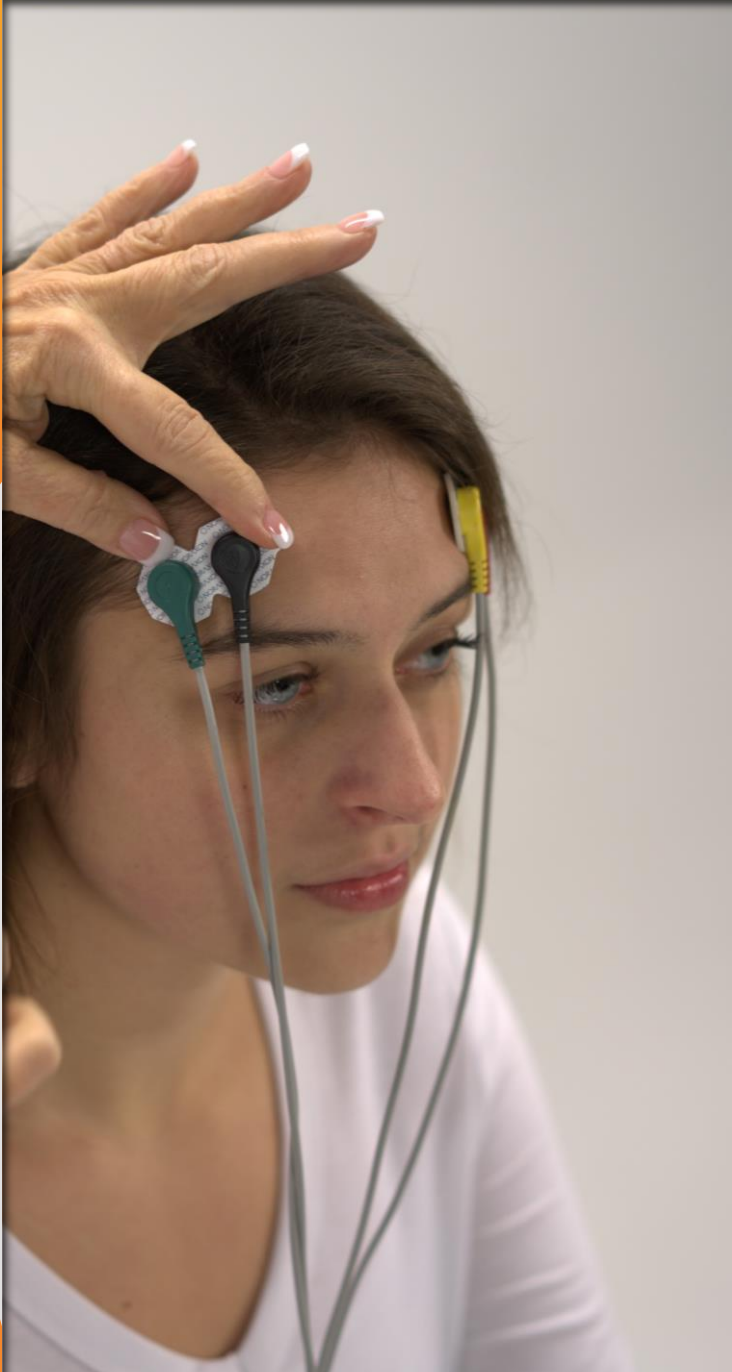

For Wellness Professionals:

MenlaScan® Pro Systems

Noninvasive system for functional body state assessment

General Wellness Device

What is **MenlaScan Pro**?

MenlaScan®Pro is our non-invasive functional analyzer with a unique combination of technologies and a sophisticated cross analysis of data in just two minutes and provides a visual representation to review with your patient.

128 Physiological Parameters in only two minutes

Intended use

MenlaScan®Pro is a general wellness product and has an intended use that relates to maintaining or encouraging a general state of health or healthy activity. Intended use relates to the role of a healthy lifestyle with helping to reduce the risk or impact of certain chronic diseases or conditions.

Who purchases the MenlaScan® systems?

- Integrative practices
- Functional medicine
- Chiropractors
- Anti-aging
- Wellness centers
- Corporate wellness
- Medical Spas
- Concierge
- Lifestyle and personalized medicine
- Fitness Centers

SAME ADVANCED TECHNOLOGY. FOUR FLEXIBLE OPTIONS. MenlaScan™ provides information that helps people and practitioners make better decisions. Features and specifications are subject to change. Some items are optional or may vary by configuration. MenlaScan™ is a general wellness device and is not intended for diagnostic use.				

Thank you for your interest in our MenlaScan® Fitness & Functional Body Scan Systems

Our pledge is to help you be massively successful in your mission to positively impact healthcare globally.

Providing Technology to Empower Healthcare Globally!

Testimonial during pandemic:

“MenlaScan,® has been the one good thing that has helped us not just attract people through our marketing plan but also because it highlights a lot of things (128 screen markers to be exact). This has been insurmountable to get people to see their pain and problems and thus convert them into patients. Susan (CEO of Menla Technologies) is our distributor and is phenomenal. Her help has been amazing during such a challenging time. Her guidance and expertise has really helped us in launching a new business during the Covid pandemic.” Dustin Musial, Tampa Florida
